Established in 1994, we are a 501(c)(3) organization and we have endeavored to meet the needs of our community through outreach at health fairs, churches, libraries, and the post office as well as other community events. The Brentwood / Bay Shore community is a virtual microcosm of the world whose cultural and economic diversity creates many special needs.

The necessity for education concerning health and especially breast health is paramount. The community contains a large number of Hispanic and Latino people who traditionally do not seek outside information regarding health matters. Many people in our community have a cultural barrier to speaking about health issues outside of the home. Our outreach programs and Spanish language support group helps to meet these needs. We have a Spanish language hotline and conduct a Spanish language support group the last Friday of every month. For information call 631.951.6908.

The Brentwood / Bay Shore Breast Cancer Coalition is dedicated to maintaining breast health using a grassroots approach to raise individual and community awareness by positive actions. We focus on the causes of breast cancer, the need for prevention, monitoring, informed treatment and accessibility of health care. To that end we endeavor to serve our community with support groups and assistance to survivors and their families who are under-insured or uninsured as well as assisting those who are unable to work during treatment by providing temporary assistance and support to pay for medical bills, assist with housing costs, utilities and provide food vouchers. Our purpose is to help bring support and needed relief from the stress of dealing with a positive diagnosis.

Our regular monthly board meetings are held in English the first Thursday of every month. Please call 631.273.9252 for further information.
