The New York State Breast Cancer Support and Education Network (NYSBCSEN) is the only statewide network of community-based, survivor-driven breast cancer organizations in New York. Collectively our member organizations reach over 100,000 New Yorkers each year with essential breast cancer support and education services. NYSBCSEN facilitates member organizations sharing programs and resources, inter-organization referrals for services, public policy updates, and a support and education system for those who are working each day in the fight against breast cancer.

ONGOING PROGRAMS AT OUR LONG ISLAND CANCER HELP & WELLNESS CENTER:

MONTHLY SUPPORT GROUP - Held on the 4th Wednesday of each month, 7 pm - 8:30 pm. Support groups are essential to the emotional foundation of cancer survivors. Both patients and survivors are encouraged to attend to share their thoughts, feelings and concerns with others. In conjunction with the support group, the center offers free chair massage.

LYMPHATIC DRAINAGE THERAPY- Call for Appointment. Lymphatic drainage therapy is applied to facilitate the removal of stagnant toxins, reduce swelling associated with lymphedema and achieve drainage of areas affected by surgery. This program is designed for those interested in learning to achieve lymphatic system maintenance and self drainage. Sessions will offer clients an opportunity to experience a treatment, learn about their lymphatic system, preventive maintenance and self-care practices to help control and prevent lymphedema. Clients will be eligible for one hour sessions on a rotating basis. This program is designed to meet the needs of clients with mild lymphedema, clients that are experiencing a flare-up or suspect the onset of lymphedema, and clients that are interested in practicing preventive maintenance. This program is not for individuals whose lymphedema is advanced.

YOGA- Tuesday evenings at 5 pm and 6:30 pm. Reduces stress, fatigue, insomnia, eases pain and increases feeling of well-being. All classes incorporate music and imagery to create an environment of relaxation. The course will utilize gentle moving and breathing techniques, allowing participants to achieve a sense of control over their bodies.

ART THERAPY - Thursdays, 2 pm to 4 pm. Healing Through Art. "Art Therapy helps put the pieces together." Discover the therapeutic benefits of art-making. Enhance your personal wellness through creative self-expression and group dialogue. Each session will have selected relaxation music and begin with a deep breathing session. Notebooks for journaling participant's reaction to their artwork may be used at the end of the session.

REIKI - Various times. Reiki is a holistic healing therapy whereby practitioners channel energy in a particular pattern to heal and harmonize individuals. Reiki focuses on wholeness and stimulates one's total natural healing process ~ physically, mentally and spiritually, thereby creating many beneficial effects that include relaxation and feelings of peace, security and wellbeing. The method seeks to restore order when a body's vital energy has become unbalanced. The practitioner places their hands on or above the individual, allowing the recipient to draw energy as needed through the practitioner to encourage energy flow and healing. Reiki reduces stress, fosters deep relaxation, destroys energy blockages and detoxifies the system. It also works in conjunction with all other medical or therapeutic techniques to relieve side effects and promote recovery.

REFLEXOLOGY - Once a month on the 3rd Wednesday evening of each month. Reflexology is a gentle form of therapeutic treatment applied to the feet. The nerve endings in the feet are stimulated by specific massage techniques to effect changes in another part of the body. Stimulating these nerve endings helps to promote relaxation, improve circulation, stimulate vital organs in the body and encourage the body's natural healing processes. Reflexology is considered to be a holistic healing technique that aims to treat the individual as a whole, in order to induce a state of balance and harmony in the body, mind and spirit, and therefore promote good health.

CREATIVE WRITING - 4th Wednesday of each month at 6 pm. Join us for another road to healing through the written word. Creative writing classes give survivors a "voice" once again. It allows one to get negative emotions out, write them down and distance themselves enough to examine how they really feel and gain perspective on issues.

The BBBCC strives for 5 basic goals:

1. To seek information of current breast cancer rates in our community. How much? Are there areas of especially high rates? What could be the possible related factors?
2. To educate ourselves and others about the nature and possible causes of breast cancer, and the need for prevention, monitoring and treatment.
3. To be a breast cancer information resource for our community.
4. To network with other breast cancer groups in order to share information and work together for our common goals.
5. To serve and strengthen our community by responding to their needs and working together to address them.

The BRENTWOOD / BAY SHORE BREAST CANCER COALITION invites you to join us for our regular meetings at the Brentwood Senior Citizens Center, located at 2nd Ave. & 2nd St. in Brentwood , on the FIRST THURSDAY OF EVERY MONTH at 7:30 PM. Please call to confirm: (631) 273-9252.
