Established in 1994, we are a501(c)(3) organization and we have endeavored to meet the needs of our community through outreach at health fairs, churches, libraries, and the post office as well as other community events. The Brentwood / Bay Shore community is a virtual microcosm of the world whose cultural and economic diversity creates many special needs.

The necessity for education concerning health and especially breast health is paramount. The community contains a large number of Hispanic and Latino people who traditionally do not seek outside information regarding health matters. Many people in our community have a cultural barrier to speaking about health issues outside of the home. Our outreach programs and Spanish language support group helps to meet these needs. We have a Spanish language hotline and conduct a Spanish language support group the last Friday of every month. For information call 631.951.6908.

The Brentwood / Bay Shore Breast Cancer Coalition is dedicated to maintaining breast health using a grassroots approach to raise individual and community awareness by positive actions. We focus on the causes of breast cancer, the need for prevention, monitoring, informed treatment and accessibility of health care. To that end we endeavor to serve our community with support groups

and assistance to survivors and their families who are under-insured or uninsured as well as assisting those who are unable to work during treatment by providing temporary assistance and support to pay for medical bills, assist with housing costs, utilities and provide food vouchers. Our purpose is to help bring support and needed relief from the stress of dealing with a positive diagnosis.

Our regular monthly board meetings are held in English the first Thursday of every month. Please call 631.273.9252 for further information.

HUNTINGTON BREAST CANCER ACTION COALITION

www.hbcac.org ■ friends@hbcac.org

631/547-1518

Quarterly eNEWSLETTER focusing on all aspects of breast cancer at local, regional and national levels. This publication is complete with informative updates on legislation regarding breast cancer and health issues, important community resources, and serves to keep the public abreast of HBCAC's activities.

Our "**LEND A HELPING HAND**" program provides support and assistance to Huntington residents undergoing treatment. Services such as medical transportation, house cleaning, emergency medical supplies and medication, and more, all free of charge to qualifying residents. The purpose is to help bring support and needed relief from the stress of dealing with a positive diagnosis.

PREVENTION IS THE CURE (PITC) is a collaborative educational campaign brings focus on the causes of disease rather than ways of coping with it once diagnosed. PITC seeks to INCREASE public awareness of environmental links to disease; GAIN support for the Precautionary Principle, as it applies to public policy; URGE the public to demand more funding for environmental health research and ENCOURAGE a "better safe than sorry" attitude toward personal lifestyle.

WHAT WE ARE DOING: We reflect on October as a success! HBCAC has been very busy this month out and about in the community! We have spoken at a variety of venues to spread the prevention message and have had some wonderful partners! HBCAC had board members put together a bowling night and community businesses participated as we shared our strengths! We are proud to partner with these community businesses like Prime Restaurant, Jack Berleth & Sons Plumbing, Flowerdale by Patty, and Hand & Stone of Huntington! Our reach has also expanded within faith-based organizations, like the Emmanuel French SDA Church, where for a second year in row we were able to present and launched our A Cautious Consumer's Guide for Safer Seafood Consumption! Additionally, Emily Shutman, who completed the field work in our Students and Scientists Environmental Research Program by studying mercury in fish at Stony Brook University this summer, will continue to work with us to share her research through the year and spread the HBCAC message with her peers.
